

Monthly Task

STEPS

TASKS

INSPECT COVER FOR DAMAGE:

Regularly examine the hot tub cover for any signs of wear and tear, such as tears, cracks, or fading. Ensure the cover is intact to preserve its insulation properties.

CHECK WATER CHEMISTRY

Test the water's pH and sanitizer levels using a reliable test kit. Adjust chemical levels as needed to maintain balanced water chemistry.

CLEAN FILTER

Remove and rinse the filter cartridge with a garden hose to remove debris and maintain optimal filtration.

SCRUB INTERIOR SURFACES

Use a hot tub-safe cleaner and a soft brush to scrub the interior surfaces of the tub, removing any buildup or residue.

INSPECT JETS AND SEALS

Check the jets and seals for any signs of damage or wear. Ensure all components are functioning properly to prevent leaks.

CHECK WATER LEVEL

Monitor the water level in the hot tub and adjust it as needed to ensure it remains at the appropriate level for optimal performance.

CLEAN COVER AND SURROUNDINGS

Clean the hot tub cover and the surrounding area with a mild detergent and water solution to remove dirt and debris.

INSPECT ACCESSORIES

Check any accessories such as steps, handrails, or cover lifters for damage or wear. Repair or replace as needed to maintain safety and functionality.

Completing these monthly tasks maintains your hot tub's top condition for years of relaxation.
