

Hot Tub Schedule

 *Weekly* 

STEPS

TASKS

RINSE THE FILTER

Use a garden hose to thoroughly rinse the filter cartridge. Remove any debris or dirt buildup.

WIPE DOWN THE WATERLINE

With a soft cloth or sponge, gently wipe down the waterline to remove any oils, dirt, or residue.

SHOCK THE WATER

Add a hot tub shock treatment to the water to eliminate bacteria, algae, and other contaminants.

CLEAN THE COVER

Remove the hot tub cover and clean it with a mild detergent and water solution. Rinse thoroughly.

CHECK & ADJUST CHEMICAL LEVELS

Test the water's pH and sanitizer levels using a reliable test kit. Adjust chemical levels as needed.

SCRUB THE INTERIOR

Using a hot tub-safe cleaner and a soft brush, scrub the interior surfaces of the tub to remove any buildup or residue.

INSPECT FOR DAMAGE

Take this opportunity to inspect the hot tub for any signs of damage or wear.

REFILL AND CIRCULATE

Refill the hot tub with fresh water and turn on the circulation system to ensure proper water distribution and filtration.

Maintain your hot tub's sparkle with our weekly deep clean schedule.
