

HOT TUB

DAILY CHECK LIST

DATE :

Status

Tasks

Test and adjust sanitizer levels (aim for 3-5 ppm chlorine)

Check water temperature (ideal between 100-104°F)

Skim surface for debris

Quick visual inspection
(check for cover wear, cabinet discoloration, and any leaks)

Note

Remember to complete your daily checklist diligently to ensure your hot tub remains in optimal condition for relaxation and enjoyment.

Consistent maintenance helps maintain water quality, equipment longevity, and overall safety. Your attention to detail keeps your oasis of tranquility pristine and inviting.
